Life-Enhancing Massage

Flex 3s[®]

Life-Enhancing Massage + Increased Flexibility

With its patented massage choreography, the Flex 3s is uniquely designed to alleviate joint stiffness and back pain. As the only massage chair in the world to combine gentle stretching movements with Japanese shiatsu massage techniques, Flex 3s can support increased range of motion and restore the natural, healthy curves of your back.

Shoulder Stabilizers

Adjustable shoulder stabilizers improve back mobility and posture.

Choreographed Movements

Specialized movements proven to improve the range of motion in back and hamstrings.

Hip and Thigh Massage

Inward motion and outward release melt away muscle soreness and fatigue.

Hot Rock Style Heat

Light heat on your hands and soles of your feet for ultimate relaxation.

Shiatsu Point Locator

Patented body-scanning technology customizes each massage session to your individual body profile.

Removable Headrest

Adjustable head pillow allows you to choose the level of neck support you prefer.

Hand-Held Remote

Simple and intuitive remote offers 11 pre-programmed sessions and over 1,000 possible manual massage combinations.

Therapeutic Tortion

Movements designed by expert physical therapists release tension in back and legs.

Full-Body Massage

Just the right amount of pressure from head to toe for an ultra-relaxing shiatsu massage.

“The chair is everything it was designed to be and it functions flawlessly— down to the smallest detail. As a former professional athlete, I have experienced plenty massages and the Flex 3s surpassed all my expectations of a massage chair. ”

Jim, Tampa, FL

“Flex 3s exceeded all of my expectations! It gives you an amazing stretch and completely opens up your shoulders. At the end of the work day, I find myself completely hunched over. I sit in my Flex 3s when I get home and feel like a new person! ”

Natalie, Denver, CO

Customizing Your Flex 3s Experience

Flex 3s offers 11 pre-programmed sessions—including Full Body & Stretch, Stretch All, Full Body and Low Body—but also allows unlimited customization for your unique definition of the perfect massage experience. The stretching and body mobility features of the Flex 3s are wonderfully complemented by soothing air-cell compression of arms, legs and feet, along with optional heating of fingers and toes.

Removable Headrest

The headrest can be used or removed depending on the intensity level of massage desired, or to adjust for your personal comfort.

Removable Lower Back Pad

The removable lower back pad helps buffer the lower back massage intensity and provides additional support when the chair is used as a recliner.

Shiatsu Inserts

Included shiatsu inserts can be added to the foot rest to provide deeper accupressure effects to the soles of your feet.

“ I have the Inada Flex 3s massage chair in my exercise room to stretch and relax post-workout. Not to mention the change that I've noticed in my posture!

I LOVE THIS CHAIR. ”

C.C., Plymouth, MI
