Please read SAFETY INSTRUCTIONS carefully before using the chair.
Introduction to the Titan Jupiter

1. The intelligent 3D technology will deliver a consistent soothing massage from your neck to down to your hamstrings. Adopting traditional Oriental massage methods, you will come to experience a soothing kneading, pressing, tapping and shiatsu style massage that will invigorate the senses and relax the body.

2. With acupuncture point tracking innovation, it will deliver a massage that will massage the key areas while adjusting to different body type.

3. To enhance the massage experience the backrest is fitted with a warm soothing heating pad.

4. The Jupiter massage chair is equipped with a highly advanced L track system that reaches neck to the hamstrings.

5. One simple touch of the remote recline back into a comfortable zero gravity position that promotes an even distribution of weight throughout the back.

6. The forward sliding space saving technology is one of the great features that greatly eliminate the awkward space required to recline. The backrest and seat frame glides forward as you recline the chair.

7. With advanced wireless Bluetooth technology, mobile or tablet device can be synced with the massage chair, to answer calls or listen to your favorite tunes.

8. The foot massager has a rounded points that scrape the bottoms of the feet in combination with air bags that apply a squeezing/kneading action.

9. In the calf region the airbags will deliver a pulsating action that will squeeze the and release, refreshing the legs.

10. For the arms the same type of airbag massage is delivered. Simply slide your arms into the slots soon as you select the massage of your preference.

11. Multiple airbags are thoughtfully placed throughout the chair to provide a fully body massage experience.

12. The legrest and foot parts can be adjusted to any angle that you needed, it can extended and retracted within the range of 15cm, to accommodate varies heights.

13. The high resolution LCD screen allows the user to see what the chair is performing and where the massage roller heads are located.

Note: We reserve the right for design modification. It is subject to change without notice. The pictures in this manual are only for reference. Please refer to the actual product.

  - Accident
  - Fire and electric shock

- **Disassembly and maintenance**
Safety instructions

Caution

- The chair must be placed on a flat even surface. To avoid sudden falling.
- The backrest of the chair when upright must be placed a minimum of 10 cm from the wall. To make sure the back is lying.
- The maximum suggested operating time is 20 mins. A maximum of 5 minutes for the upper, mid and lower back is advised to avoid injury.
- The maximum suggested operating time is 20 mins. Too long time massage is bad for your body.
- Before sitting on the chair to avoid injury please inspect everything to confirm that the massage heads are in the correct position.
- Remote control should be put in the pocket or in the bracket. Do not put the remote control anywhere besides the suggested locations to avoid damage.
- Please make sure that the power switch is at the "OFF" position before inserting the plug into the socket. To avoid accidental injury.
- Turn off all remote before removing plug from outlet. To avoid the accident when turn on the power.
- Make sure the plug is completely insert into outlet. To reduce short circuits and any fire hazard.
- Don’t tamper or remove the ground wire. To avoid electric shock in any leakage or breakdown.
- If the chair has any burning smell immediately unplug the power. To avoid electric shock.
- Keep the power cord away from the following:
  - Telephone lines, gas pipes
  - During heavy thunder storms that may lead to power outages, unplug the chair
  - The power cord must at all times stay dry.

Preparation

Preparation

Grounding instruction

- The chair is equipped with a cord having an grounding conductor. The plug must be plugged into an appropriate socket that is properly installed and matched with the plug.

Replace fuse

- When the fuse is burned out, please turn off the switch and unplug the power. If the chair is not powering up, please check the fuse by removing plug cover shown on the right. Using a same size fuse with the same rating to replace the old one, then cover the lid. Or you can contact the manufacturer for a certified electrician.

The ground wire is not allowed to be in these places

Keep the power cord away from:
- Telephone lines, gas pipes
- During heavy thunder storms that may lead to power outages, unplug the chair
- The power cord must at all times stay dry.

**Installation**

**Installation (1)**

**Step 1. How to move the chair**

1. Cut the straps and unpack the box to access the base of the chair. Remove all pads and cushions from the base and lift the chair from the points indicated in image below.
2. With 2 or more people, lift carefully and move the chair to the desired location. Be sure to keep all the cushions, remote and power cord together so that nothing is lost. (as the picture shows)

---

**Installation (2)**

**Step 2. Massage chair position return**

1. Once the chair base and backrest are removed from the box, insert the power cord into the chair and then into the outlet. 2. Turn on the power switch on the back of the chair and the backrest will raise up as the seat base levels flat. 3. Once the chair is in the upright position, turn off the chair and proceed to next step of the install. (Refer to step 7, after the assembly)

---

**Step 3. How to assemble the legrest**

1. Take out the left and right armrest from the armrest carton box. Remove the armrest slowly and carefully. We recommend that you lay the armrest face up on a blanket or carpeted floor to avoid scratches and tears. When holding the armrest, handle by grabbing on the indicated areas (image on the right).
2. Take out the legrest from the legrest box. Remove from the box by grabbing the indicated locations.

---

**Leg rest device**
Installation (3)

Step 4. How to assemble the left and right armrest

1. Unscrew the bolt designated as M6 on the seat frame with cross screwdriver.
2. Insert the hole on the armrest into the fixed bolt.
3. Insert the square tube into the side piece of the seat frame.
4. Be sure the side panel holes line up in the front and back. Thread the M6 bolt and proceed to tighten.
5. Open the zipper around the shoulder air bags, pull out the air bags, aligned the holes to the shoulders between airbags and armrest, then put the screws inside the screw hole until fastened. Zip up at last.
6. Put the armrest tubes connect into the seat tubes.

Be sure the air hose is not bent, cracked or twisted when connecting. This will prevent any blockage.

Disassemble the armrest: Zip up and remove the screws before disassembling the shoulder airbag. Disconnect the air tubes between the seat and armrest, unscrew the four screws on the seat. Then lift up the front of armrest, let the square tube of armrest move out from the plate of seat frame. Then press the button on the fixed hole which is near the back on the inside part of the armrest. Then pull the end of armrest at same time, move the fixed hole away from the fixed bolt which on the side of backrest.

Installation (4)

Step 5. Connect the zipper or velcro

Put the back seat cushion, head pad onto the backrest and connect the two parts with zipper and velcro.

Warm tips

When selecting a pre-programmed massage, be sure to be still and keep your butt pressed to the backrest as the chair will initiate a computer body scan.

Step 6. After the Assembly

After the assembly, please operate the chair in this order:
1. Plug the cable line in the hole a on the power box as shown in the right picture.
2. Hole A connect with one end of cable line.
3. Hole b insert plug of the remote control.
4. Insert the plug of cable line into the socket.
5. Switch on. (Switch on/off “Oil”, press I down to turn it on.)
6. Enjoy the massage by using the remote control.

Make sure the switch is off before you insert the plug of cable line into the socket.
The adjustment before massage

Environment

Caution
- Don’t use the chair in wet places like near swimming pool, bath room to avoid leakage or electric shock.
- Don’t use under sunlight or near stove or other heating place to avoid upholstery deteriorated.
- Please use chair in flat place to avoid chair falling or noise or other unexpected trouble.

Check places in front
- Check the areas when back and leg extending, make sure no people, pets or other things around.

Check power cable, plug
- (1) Clean the dust on plug on time. (using dry cloth).
- (2) No damage, re-do, bend, stretch, tie or press with heavy thing especially can’t be pressed by the chair on power cable.

Check environment

Space size for using the chair
- At least 10cm from wall.
- At least 30cm in front of the leg.

Check surroundings
- When the backrest or legrest reclines or extends, please pay attention to:
  (1) Check any person or things in every direction.
  (2) Check the space size.

How to move massage chair

Caution
- Don’t move chair when it’s working in case of accidents or damage.

Before adjustment
- Please make sure the massage head in the seat part before sitting on the chair.
- To avoid injury caused by wrong position of the massage head.
- Acupuncture point tracking detecting
  When doing acupuncture point position detecting, if massage head can’t detect the effective shoulder height position, the actual shoulder height position was default to the middle part of back.
  Right position: Your back cling to the chair back, the head clings to the pillow.
  The remote control gives "beep" sound after acupuncture point tracking detecting finished, when micro-adjustment is needed, just press up/down key on the remote control.
- Avoid for the massage head detecting your acupuncture point position not right, otherwise you won’t get good massage.

How to move
- Bind the cables and put them in the seat to avoid damage when moving.
- If you plump the chair, it may damage the inner parts of the chair.
- Don’t use the castor if the floor is wooden or other easy damaged material. It will need 2 or more persons to lift the chair.
- Make sure the power is off and the plug doesn’t touch the floor (it’s better to let the chair in standing status to avoid the back crashing the floor)

Normally
- Lift up the legrest to make the gravity fall on the castor. Then push chair to destination and set it down.

Kind suggestion
- When you feel the intensity isn’t strong enough, take off the pillow or cushion.
- Because the chair is heavy, it may ruin your floor in long time setting. Please put a blanket or other soft things to protect your floor.

Please hold the footrest to move the chair as shown in the picture in case any scratches on the leatherette.
**Manual control**

1. Press the on button on the remote. From there you can select a pre-set program or manual setting. In the manual setting you can select the duration of the massage. Prior to selecting a massage program you can sync your mobile or tablet device.

2. This button allows you to pause the massage and turn back on at your convenience.

3. The timing button allows you to select from 5mins, 10mins, 15mins, 20mins, 25mins, 30mins intervals.

4. In ON status, this button allows you to answer and end calls.

5. This button will recline the backrest at the same time raise the footrest.

6. This button raises the backrest and lowers the legrest.

7. This button lowers the legrest without moving the backrest.

8. This button lowers the legrest without moving the backrest.

9. In ON status and under Menu mode, press it to confirm menu choice and enter next menu.

10. This navigation pad allows you to select the functions much like a mouse of a computer, moving up, down, right and left.

11. The heat button activates the heating pad located in the backrest.

12. In ON status, press this button to adjust the massage speed, intensity and heating temperature. Select the desired mode, and relative screen display is glittering, and then you can press left/ right button to adjust the massage speed, intensity and heating temperature

13. In ON status, press this button to adjust the massage width, and relative screen display is glittering on the controller, and then you can press left/right button to adjust the massage width.

14. In ON status, press this button to adjust foot roller massage speed: fast, soft and stop.

15. In ON status, press this button to enter auto program menu.

16. In ON status, press this button to enter manual program menu.

17. In ON status, press this button to enter air massage menu.

18. In ON or standby status, press this button, massage chair will go into zero-gravity position, press it again to return to default position.
After power is on, press on/off key, the buzzer gives a short ring, the LCD screen will turn on, showing the display as shown on the left. The screen will show the massage method, time and current working status, etc., all of the information will in be real-time.

Manual control

LCD display graphic description

Main interface

After power is on, press on/off key, the buzzer gives a short ring, the LCD screen will turn on, showing the display as shown on the left. The screen will show the massage method, time and current working status, etc., all of the information will in be real-time.

Main interface

After power is on, press on/off key, the buzzer gives a short ring, the LCD screen will turn on, showing the display as shown on the left. The screen will show the massage method, time and current working status, etc., all of the information will in be real-time.

LCD display graphic description

Manual control

Auto massage: press “auto” in the main interface, the screen will display the auto massage interface. There are 10 massage programs to select from: power, sleeping, vitality mode, relax, comfortable mode, pain relief, muscle strengthen, blood circulation, focus on waist, stretch.

All pre-set massage programs will conduct a computer body scan. Soon as the computer body scan is complete, choose any one of the 10 programs, shoulder height detection is not needed any more.

Back/seat angle can be adjusted automatically: During auto massage, the back/seat angle will be automatically changed.

Manual Massage: If the computer body scan doesn’t complete, please restart the process again. In manual mode the computer body scan will activate unless “point” massage is selected.

1. 7 massage methods: shiatsu, kneading, tapping, knocking, shiatsu (rolling), mix 1 (Knead+Tap) and mix 2 (Knead+Knock).
2. 5 positions for choice: Neck and Shoulder Mode: massage neck and shoulder Shoulder and Back Mode: massage shoulder and back Back and Waist Mode: massage back and waist Waist and Seat Mode: massage waist and seat Whole Body Mode: massage the whole body

During 3D Feel mode, only three positions are available, neck and shoulder mode, shoulder and back mode, back and waist mode.

3. Fixed Point
1. The preset massage program default mode is whole body.
2. Select massage method before choosing the position or fixed point.
3. Select Manual mode, all air pressure massage will turn off.

Air Massage: Ten air massage modes for you to choose, Shoulder+Arm, Waist+Pelvis, Leg+Foot, Head, Shoulder+Foot, Arm+Pelvis, Waist+Foot, Upper Body, Lower Body, Whole Body Mode. Once air massage is activated, the mechanical massage of the back massage machine shall stop.
Step 1. Power on
1. Put one end plug of power line in location “a” as shown.
2. Insert plug to outlet.
3. Turn on the power switch which is on the power box shown above.
4. Press power button on the controller and beeping sound will be heard and the display will appear on the screen.

Step 2. Massage
1. Operate by selecting the desired massage or function.
2. When the massage stops, massage chair will return to the default position, meanwhile “Shutting down” displayed on the controller, will turn off.

Step 3. Turn off the power
1. When the chair is On, press On/Off button to turn off the massage chair and it will return to its default position.
2. Turn off the power switch located on the back of the chair.
3. Unplug the power plug from the socket.

Warning
1. Before using, pull up the pillow, back cushion etc. to check if the PU material is broken. If there is damage, please stop using, unplug the chair, and ask for repairment.
2. Only plug to proper socket.

Attention
1. Before sitting down, make sure there is nothing pinched between armrest, legrest, backrest and seat of the chair.
2. Make sure the chair is in default position before using again.
3. Do not stand on the massage chair at any time.

1. Please make sure there is no obstructions such as adults, kids, pets or objects are near when operating.
2. When adjusting the backrest, be careful that no part of the body fall into the gap between the backrest and armrest.
3. When the legrest is moving, please do not stand on footrest applying all your weight on the motor.

Function Illustration
- Legrest up and backrest down
- Legrest extend and retract
- Legrest go up and legrest go down
- Arm massage
- Shoulder massage
- Foot roller massage
After using, press ON/OFF to end all the massage method and wait for restoration.

Make sure to unplug the power to avoid any unexpected injury to children or pets.

After using, turn off the power, unplug the electricity.

Clean the controller

Wipe with soft cloth after squeezing.

Cleaning propellant, diluent or alcohol are prohibited.

About cleaning

Before cleaning, unplug the electricity, don’t touch plug with wet hands.

Make sure hands are dry when plugging to the socket.

If you fail to follow the instruction you are risking potential serious injury.

Synthetic leather

Clean with a clean soft and dry cloth. (Chemical or medical cleaning products are forbidden)

If upholstery is dirty

Dip soft cloth into 3-5% neutral detergent solution, squeeze it then clean the stain on the surface gently.

Wash cloth, squeeze it and wipe with detergent.

Clean it softly with dry cloth.

Allow to dry (air blower is prohibited)

Clean the controller

Wipe with soft cloth after squeezing.

Allow to dry.

Propellant, diluent or alcohol are prohibited.

Cloth material

Dip cloth into weak neutral detergent, squeeze it and clean the surface & fabric. (Diluent, gas, alcohol are prohibited)

Brush the dirty parts with weak neutral detergent. (avoid excessive brushing)

Excessive cleaning may cause damage to cloth material.

Wipe with water-dipped but squeezed cloth.

Allow to dry.

Attention!

Make sure there is no people or pet or anything within the range of backrest and legrest.

Be sure to return the backrest and legrest to the default position by using controller.
(or press ON/Off key to make backrest and legrest restore to the normal position)

After restoring, put the controller back into the pocket of the right armrest.

Put the pillow pad on to the right position.
