M.DX

## Features

### Rear Swing Doors

Move into and out of your massage chair with ease and grace. Left and right Rear Swing Doors allow for simple ingress and egress. The first and only of their kind, our innovative doors make getting in and out of your chair easy and relaxing.

### Deltawave™ Massage Mechanism

At the core of the M.DX lies the technology to transform your entire state of being. Our proprietary DeltaWave engine is designed to deliver an intuitive and life-like massage. In addition to basic movements, the DeltaWave 4D engine uses advanced massage algorithms to mimic the hand movements of a massage therapist.

### MaxTrack™

Luxury is not about compromise. The M-Series' proprietary MaxTrack is the perfect marriage of our DeltaWave mechanism design with a uniquely shaped massage track. Seamlessly move from upright, to zero gravity, to lie-flat and even inversion—all without missing a beat.

### Theraelliptical™ Calf Kneading

Let tension melt as complex movements mimic the hands of a shiatsu master, gently compressing and kneading your calves. This powerful and soothing capability enhances circulation, leaving your lower body refreshed and renewed.

### Arms of Embrace

With twelve independently-controlled air cells creating millions of possible sequences, the M.DX addresses pressure points along the shoulders, arms and hands. Be enveloped in the arms of a master as the wisdom of Okabayashi sensei appears in each soothing massage.

### Foot Rollers

Find sweet, soothing relief for tired feet. These carefully choreographed, two-way rollers gently work pressure points on the soles of your feet.

### Multi-Language Remote

Designed to be simple and intuitive, the easy-to-read user interface allows you to adjust and monitor your massage. Ten languages are available, including English, Japanese, Korean, Chinese (Simple and Traditional), Vietnamese, German, Spanish, Russian and French.
