ZENGINEERED® FOR COMFORT

Panasonic

ZENGINEERED

\zen-juh-need\ *verb*: To artfully blend ancient ideas of meditation and intuition with unsurpassed, state-of-the-art technology.

Zengineering is the heart and soul of our massage chairs.

For over a century, Panasonic has developed highly-regarded consumer and industrial products that marry innovative technology with thoughtful design.

Delicate enough to caress, powerful enough to provide deep therapy, and soothing enough to promote relaxation, every part of Panasonic massage chairs has been thoughtfully engineered. The combination of advanced technology and expert craftsmanship produces satisfying results for the most discerning individuals.

This is Zengineering.

“My wife prefers a more aggressive massage, while I like a softer one. With all the adjustments available on the MAJ7, we are both able to find exactly what we want in the chair. The individual profiles allow us to save our settings too!”

REAL PRO ULTRA™

Panasonic's Real Pro Ultra back massage mechanism is Zengineered to deliver a lifelike massage that simulates the movement, touch, and warmth of human hands. Our engineers and massage experts worked together to imagine and build a precise, effective mechanism.

Refined, intuitive, and thoughtful, the Real Pro Ultra is your at-home, on-call massage therapist.

By combining body profile scanning with pressure sensing massage rollers, Real Pro Ultra delivers a tailored massage with intensity focused directly on acupressure points.

It's delicate enough to caress. It's powerful enough to fully mobilize every level of your spine from your neck to your low back. It's our Real Pro Ultra: the engine that drives the MAJ7 massage chair.

MASSAGE TECHNIQUES

Proprietary Junetsu Ultra Kneading

A Real Pro Ultra Exclusive, Junetsu Ultra Kneading massage techniques involve tight spiral movements that quickly and effectively loosen tight muscles. The target zones benefit from increased blood flow and improvement in pliability of muscle fibers. Junetsu Ultra Kneading also does an exceptional job relaxing the neck and shoulders, improving mobility, range of motion, and comfort. These techniques are exclusive to Panasonic massage chairs.

Shiatsu

Based on traditional Chinese medicine, this Japanese style of massage literally translates to “finger pressure.” As the name suggests, shiatsu massage addresses specific points on the body, often referred to as shiatsu points, pressure points, or acupressure points. The MAJ7’s body type scan, in concert with pressure sensing massage heads, direct force accurately and firmly on shiatsu points.

Swedish

The Swedish massage style helps to provide overall relaxation and improve circulation, while enhancing physical health and mental well-being. The MAJ7’s Real Pro Ultra mechanism applies gentle pressure and movements to simulate how a massage therapist uses hands and palms to provide the relaxing movements typical of Swedish massage.

Kneading

Experience the dazzling variety in circumference, speed, and depth of kneading offered by the MAJ7. From deep kneading therapy to the most gentle of strokes, MAJ7’s next-generation Real Pro Ultra massage mechanism makes it possible to recreate the trained hands of a massage therapist.

Tapping

This motion simulates the sensation of hands percussively or gently tapping the back. Rapid tapping invigorates and revitalizes, while slow tapping can help your mind and body drift peacefully and comfortably into deep meditation.

Rolling

An up-down movement that is as simple as it sounds... that is until you add in the variation of speed, width, and depth that can be achieved by MAJ7’s Real Pro Ultra mechanism. Rolling motions are surprisingly relaxing, and they provide beneficial intersegmental traction and extension to all levels of your back. Regular back mobilization helps promote and maintain the health of spinal discs.
