Nest

Find Your Quiet Place

Nest

Welcome Home. Welcome to Your Nest.

Nest pushes the boundary of massage chair capability, changing notions of what a massage chair can do. Feel the unexpected come to life. Experience unforgettable, holistic massage as Nest blurs the line between human hands and a perfectly tuned machine. Sixty-four air cells and six motors execute precisely choreographed massage movements in novel, comfortable, and highly therapeutic ways. Settle into your Nest, in the comfort and convenience of your home or office, escape, and make this day (and every day) the most relaxed, healthiest day of your life.

Full-body Massage

1085 square inches of coverage combine with incomparable massage choreography to provide transcendent massage from head-to-toe.

Remote

Easy-to-use remote featuring 11 programmed sessions and 16 manual massage types offering over 300 possible manual massage combinations. Built in remote holder is conveniently located for easy storage and easy access.

3D LR Differential Massage

This proprietary technology provides authentic independent multidimensional movements to the left and right sides of the back delivering movements that are available only in Nest.

Reengineered Rollers

Nest's uniquely shaped rollers have a bumpy, knobby rolling surface able to hit acupuncture points like no other roller can.

Self-Adjusting Headrest

Sit back, relax and let Nest perfectly adjust to you as the headrest automatically moves into the precise placement for optimal fit.

Shiatsu Point Locator

Patented and proprietary body-scanning technology locates your shiatsu points and customizes each massage session specifically to your body's profile.

Full-Arm Massage

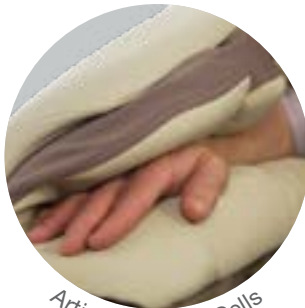

Segmented, sequential, and expertly choreographed to improve circulation. Brings oxygen-rich blood to the arms and hands while removing built up toxins.

Targeted Calf and Anterior Shin Massage

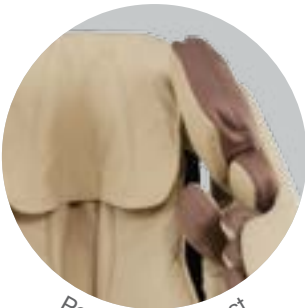

Nest envelops your calf providing relieving pressure and soothing touch to areas no other massage chair can access.

Reengineered Rollers

Articulated Arm Cells

Perfected Headrest

Targeted Foot & Calf Massage

Unique Design and Functionality from the Worldwide Leader

In 1962 Nichimu Inada created the world's first massage chair in Osaka, Japan. More than a half century after its inception, Inada continues to lead the industry with the most innovative, most effective massage chairs in the world.

Known for developing massage mechanisms that faithfully mimic the feeling of real human hands, the company's headquarters in Japan is considered the epicenter for groundbreaking developments in the massage industry. All design, engineering, choreography, and manufacturing is completed in-house, ensuring our legendary quality and craftsmanship is built into every chair.

Inada's focus on quality and performance make our massage chairs the best value in the market. Hundreds of thousands of customers worldwide find relief and comfort on a daily basis from Inada's products. We invite you to discover the transcendent relaxation of The World's Best Massage Chair®.

The New York Times WSJ n p r

“Like having a massage therapist.”

Having Inada is like having a massage therapist on duty 24-hours a day in our own home. At any time of day or night I can select any kind of massage I want. When it comes to getting rid of stress, it's the best investment I've ever made.

Jerry S., San Diego, CA

“Contributes good health and longevity!”

My dad just loves his Inada massage chair! It encourages a very active 84-year old to get the rest he needs but might otherwise neglect. So truly we credit your product with contributing to my father's good health and longevity.

Christine M., New York, NY
